

ALUMINUM DOOR LOUVERS

Type CDL for doors 1 3/8" to 1 3/4" thick

Features

KNC Door Louvers with sight-proof chevron blades are easy to install, attractive in design and are suitable for plastic laminated, wood and hollow metal doors. Other features include aluminum's acceptance to a wide range of finishes; resistance to loosening of screws due to vibration by having frame sections clamped together by unique, durable nylon clip. Free area of approximately 30%.

Materials

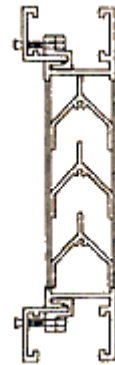

KNC Door Louvers are fabricated using 6063-T5 Aluminum Alloy with a minimum of .062 inch thickness and reinforced screw slot fastening members.

Finishes & Colors

KNC Door Louvers are available from stock in either mill finish Aluminum or Clear Anodized Aluminum finish. Other Anodized or painted finishes available upon request.

Custom Design

KNC Door Louvers are Custom designed and Custom fabricated to suit any architectural requirement. Shop drawings are made on request for architect's approval.

Quality of Construction and Manufacture

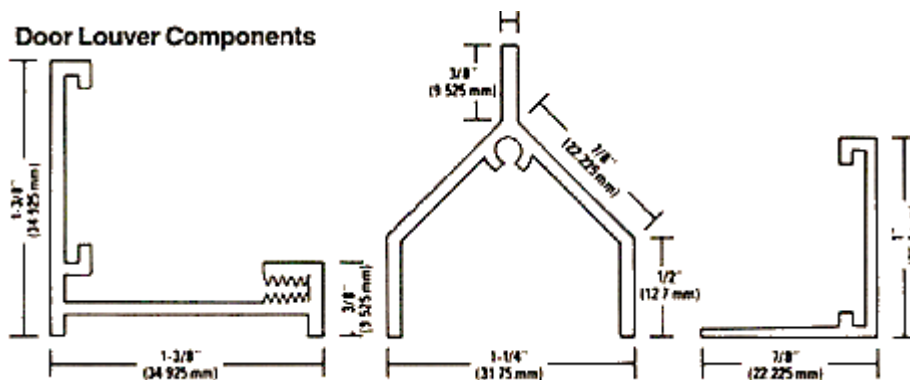

KNC Door Louvers are manufactured from the highest quality of aluminum and are guaranteed against defects of material and workmanship for a period of TWELVE MONTHS from the date of installation. This guarantee does not apply to the color finishes which carry their own extended guarantees covering this.

Insect and Bird Screens

Protective screens available on request.
