CD100 HOLLOW CORE

APPLICATIONS & BENEFITS

Recommended for a small range of Commercial applications. The hollow core offers light weight and reduced costs where a light-duty door or bifold is appropriate. Available in a wide variety of hardwood and hardboard faces.

SPECIFICATIONS

MAXIMUM SIZE

(Nonrated)

Single doors 4'0" x 10'0" Regular and Double Egress Paired doors 8'0" x 10'0"

DOOR THICKNESS

 $1^3/8$ " and $1^3/4$ " standard.

STILES

Minimum $1^{1}/4^{\prime\prime}$ (before trim) softwood edge. Solid hardwood outer edges matching (compatible with) the face veneer are available.

DAILE

Minimum 2" (before trim) mill option wood rails. Matching (compatible) wood rails available upon request

LOOSE LAY CORE AND FRAME ASSEMBLY

Expanded honeycomb core with particle board lockblocks both stiles.

FACES

Pregraded: Hardboard, Medium Density Overlay, or Premium 3-ply veneered skins (minimum ½50" veneer before sanding). Veneers available in a wide variety of species and cuts.

ADHESIVES

Core and frame assembly and veneer application all with Type 1, waterproof adhesives.

BLOCKING

Special inner blocking options may be specified for reinforcing of hardware or light cutouts. Wooden lock blocks are available.

FACTORY MACHINING/DETAILING

Complete range of machining capabilities and detailing available.

LIGHT OPENINGS

Cut-out area may not exceed 40% of the face or half of the door height to comply with the warranty. All cut-outs must be 6'' from the edge of the door or any other cutouts and/or hardware press.

WARRANTY

Five years for interior use only. See warranty terms and conditions. Use of Lynden Door, Inc. CD100 doors in exterior applications is neither recommended nor warranted.

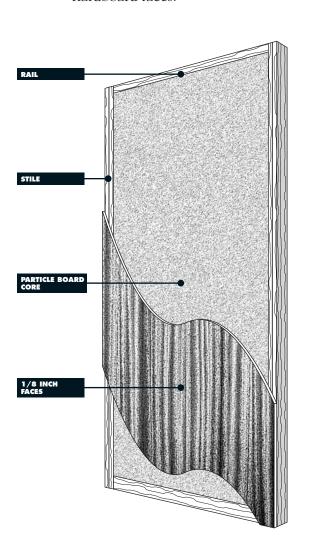

LYNDEN DOOR, INC. P.O. BOX 528 177 WEST MAIN ST. **LYNDEN, WA 98264** PHONE (360) 354-5676 FAX (360) 354-3738

CD200 PARTICLE BOARD CORE

APPLICATIONS & BENEFITS

Recommended for a wide range of Commercial applications. The particle board core offers good stability against warpage and telegraphing. Available as either nonrated or twenty-minute fire-rated in a wide variety of hardwood and hardboard faces.

SPECIFICATIONS

MAXIMUM SIZE

(Nonrated)

4'0" x 10'0" Single doors 8'0" x 10'0" Regular and Double Egress Paired doors (20 minute rated) $4'0'' \times 10'0''$ Single doors Maximum size door/transom 4'0" x 10'0"

8'0" x 10'0" Paired doors: Dependent on hardware used, up to

Note: GP Firestop II meeting edges may be used for twenty-minute pairs in lieu of metal edges.

DOOR THICKNESS

 $1^{3}/8''$ (nonrated only) and $1^{3}/4''$ standard.

Minimum 1¹/₄" (before trim) softwood edge. Solid hardwood outer edges matching (compatible with) the face veneer are available.

Minimum 2" (before trim) mill option wood rails. Matching (compatible) wood rails available upon request.

BONDED SANDED CORE AND FRAME ASSEMBLY

Particle Board Core with an average density of 28 to 32 lbs. Stiles and rails are glued to the core and the assembled unit is then sanded prior to lay-up and pressing.

Pregraded: Hardboard, Medium Density Overlay, or Premium 3-ply veneered skins (minimum ¹/50" veneer before sanding). Veneers available in a wide variety of species and cuts.

Core and frame assembly and veneer application all with Type 1, waterproof adhesives.

BLOCKING

Special inner blocking options may be specified for reinforcing of hardware. Wooden lock blocks are available.

FACTORY MACHINING/DETAILING

Complete range of machining capabilities and detailing available. Rated doors must be in accordance with Warnock Hersey International, Inc. and National Fire Protection Association Standards (NFPA 80, latest edition). Lynden Door, Inc. recommends factory prefitting on all fire doors.

LIGHT OPENINGS

Cut-out area may not exceed 40% of the face or half of the door height to comply with the warranty. For 20 minute rated doors, the total visible area of single or multiple lights may not exceed 1296 sq. in. per leaf, with a maximum width of 36", or a maximum height of 54". All cut-outs must be 6" from the edge of the door or any other cutouts and/or hardware preps. Louvres are not allowed in 20 minute doors.

WARRANTY

Five years for interior use only. See warranty terms and conditions. Use of Lynden Door, Inc. CD200 doors in exterior applications is neither recommended nor warranted.

4'0" x 10'0"
4'0" x 10'0"
8'0" x 10'0"

Note: GP Firestop II meeting edges may be used for twenty-minute pairs in lieu of metal edges.

DOOR THICKNESS

 $1^{3}/8''$ (nonrated only) and $1^{3}/4''$ standard.

STILES

Minimum $1^{1}/4^{\prime\prime}$ (before trim) softwood edge. Solid hardwood outer edges matching (compatible with) the face veneer are available.

DAIIG

Minimum 2" (before trim) mill option wood rails. Matching (compatible) wood rails available upon request.

BONDED SANDED CORE AND FRAME ASSEMBLY

A pre-glued, pre-assembled, sanded core made up of softwood strips not more than $2^1/2^{\shortparallel}$ wide, of one species of wood at a 6% to 9% moisture content. The end joints are to be tight and staggered in adjacent columns. Stiles and rails are glued to the core, and the assembled unit is then sanded prior to lay-up and pressing.

FACES

Pregraded: Hardboard, Medium Density Overlay, or Premium 3-ply veneered skins (minimum $^1\!/50''$ veneer before sanding). Veneers available in a wide variety of species and cuts.

ADHESIVES

Core and frame assembly and veneer application all with Type 1, waterproof adhesives.

FACTORY MACHINING/DETAILING

Complete range of machining capabilities and detailing available. Rated doors must be in accordance with Warnock Hersey International, Inc. and National Fire Protection Association Standards (NFPA 80, latest edition). Lynden Door, Inc. recommends factory prefitting on all fire doors.

LIGHT OPENINGS

Cut-out area may not exceed 40% of the face or half of the door height to comply with the warranty. For 20 minute rated doors, the total visible area of single or multiple lights may not exceed 1296 sq. in. per leaf, with a maximum width of 36", or a maximum height of 54". All cut-outs must be 6" from the edge of the door or any other cutouts and/or hardware preps. Louvres are not allowed in 20 minute doors.

WARRANTY

Five years for interior use only. See warranty terms and conditions. Use of Lynden Door, Inc. CD300 doors in exterior applications is neither recommended nor warranted (except for MDO exterior doors available in this core only).

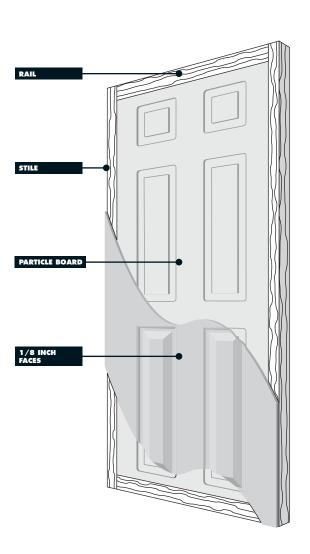

LYNDEN DOOR, INC. P.O. BOX 528 177 WEST MAIN ST. LYNDEN, WA 98264 PHONE (360) 354-5676 FAX (360) 354-3738

COMMERCIAL SMOOTH COLONIST SOLID CORE

APPLICATIONS & BENEFITS

Recommended for a wide range of commercial applications. The unique dimensions of the face frame allows for installation of most commercial hardware on a molded panel door. Available as a standard solid core, or as fire rated particle or mineral core.

SPECIFICATIONS

MAXIMUM SIZE (Single swing only)

2'6" x 6'8"	2'6" x 7'0"
2′8″ x 6′8″	2′8″ x 7′0″

FIRE RATINGS

 $1^{3}/4^{\prime\prime}$ thick doors: 20 minute rated (60 minute rated available upon request).

STILES

 $1^3/8$ " doors: Minimum $1^1/4$ " (before trim) mill option fingerjointed softwood stiles. $1^3/4$ " doors 6'8" high: Minimum $1^1/4$ " (before trim) mill option fingerjointed softwood stiles. $1^3/4$ " doors 7'0" high: Minimum $1^3/4$ " (before trim) mill option fingerjointed softwood stiles.

DAIIG

 $1^3/8$ " doors: Minimum $2^1/4$ " (before trim) mill option fiberboard or softwood rails. $1^3/4$ " doors: Minimum $2^5/8$ " (before trim) mill option softwood rails.

LOOSE LAY CORE AND FRAME ASSEMBLY

Particle board core routed to accept molded skins, with an average core density of 28 to 34 lbs.

FACES

Pregraded 1/8" molded hardboard skins.

ADHESIVES

Core and frame assembly and veneer application all with Type II water resistant adhesives. Type I waterproof adhesives available upon request.

BLOCKING

Special inner blocking options may be specified for hardware reinforcement.

FACTORY MACHINING

Complete range of machining capabilities and detailing available. Rated doors must be in accordance with Warnock Hersey International, Inc. and National Fire Protection Agency Standards (NFPA 80, or latest edition). Lynden Door, Inc. recommends factory prefitting on all fire doors.

WARRANTY

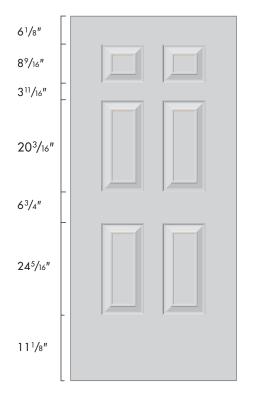

Five years for interior use only. See warranty terms and conditions. Use of Lynden Door, Inc. interior doors in exterior applications is neither recommended nor warranted.

NOTE

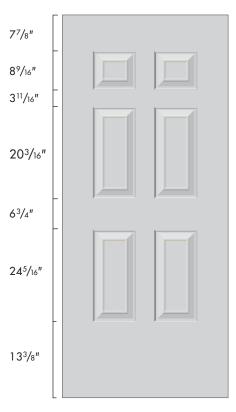

All Lynden Door, Inc. doors meet or exceed N.W.W.D.A., I.S.1 and C.S.A. standards.
