

## Series 3150 Curtain Wall

---

Series 3150 curtain wall combines the horizontal members of Series 3250 with structural silicone glazed vertical mullions. Narrow 3/8" wide silicone joints and vertical mullions hidden behind the glass create the appearance of a glass wall with horizontal feature strips. Dual or two-tone colors can be achieved by specifying different finishes for the exterior face covers and interior mullions. Two piece horizontals and extruded shear blocks allow for a concealed horizontal to vertical joinery without exposed screws.

- Vertically butt glazed
- 2 1/2" Face dimension
- 1/4" and 1" glazing systems
- Multiple system depths
- Exterior glazed
- Thermally improved
- Pressure bar glazed
- No exposed fasteners
- 4 sided butt glaze option
- Two-tone finish available
- Available in an array of architectural coatings and anodized finishes
